

United Egg Producers (UEP) is a Capper-Volstead cooperative of egg farmers from all across the United States and representing the ownership of approximately 95% of all the nation's egg-laying hens. Of the total farm members, 34 serve on the Board of Directors and they along with several others serve on various committees. We, therefore, think of UEP as an organization of "Leadership By Egg Farmers - For Egg Farmers".

UEP and our farm members believe in consumer choice and therefore produce eggs in modern cage, cage-free and organic production systems as well as producing other specialty shell egg products. Our members also provide liquid, dried and other forms of further processed egg products to the retail, food service and food manufacturing sectors.
